## ABOUT

This website is a simple demo to display newsfeeds automation about crawling data from resources into a database and importing feeds from the database. It is implemented by using Docker-compose, MSSQL, and Python flask. The features are:

- Present the 5 best-rated news articles.
- Present the latest news articles.
- Present a rating feature for news articles.
- Present news articles with arbitrary update intervals in the admin panel.
- Present an endpoint to download news articles in JSON

Web interface refrence: <https://www.free-css.com/free-css-templates/page203/newsfeed>
